Members of the The Caltech Jazz Bands and the Caltech-Occidental Concert Band rehearse one night a week for less than two hours at each rehearsal. That the band members are able to learn a great deal of music in so short a time is a true testament to their hard work and high level of musicianship. You can learn more about the bands by going to the bands web site: www.music.caltech.edu/band-intro.html.

We are all most grateful to you, the audience, for attending the concert this evening to listen to the results of our hard work. If you would like to be on the mailing list for future concerts, please fill out the enclosed form and hand it to an usher.

William Bing, Director of Bands at Caltech, has been teaching at Caltech for over thirty years. During that time, the bands have played many premieres and performed for over ten thousand people. In addition to his work at Caltech, Bill is a busy trumpet player. He has played and recorded with the Los Angeles Philharmonic, the Los Angeles Chamber Orchestra, the Pasadena Symphony, the California Philharmonic, the American Ballet, the Los Angeles Opera, and the Harlem Ballet. Conductors he has worked with include John Williams, Henry Mancini, Pierre Boulez, Simon Rattle, John Adams, Olivier Messiaen, and many others. Bill and his wife Delores have won many teaching awards including the ASCIT Teaching Award, Pasadena Youth Music Council Teachers of the Year, and Honorary Membership in the Caltech Alumni Association.

Kjerstin Williams is delighted to sing with the Caltech Monday Jazz Band once again. She joined Caltech's music program in 1996 as a freshman trombonist, but soon found herself in front of Caltech's jazz bands, microphone in hand, singing her favorite tunes. Kjerstin earned her B.S. ('00) and M.S. ('02) in Electrical Engineering from Caltech. After six years of graduate research, she defended her Ph.D. thesis last week. In her thesis acknowledgements, Kjerstin writes, "Through ten years and three Caltech degrees, Bill Bing and the Caltech Bands have been such a bright spot in my life; it has always been a privilege to play and sing with you."

Regular guest conductor Paul Asimow has a lengthy association with the Band going back to 1991 when he started graduate school at Caltech in geology. Having been student conductor of the Harvard University Band, he was excited to continue conducting at Caltech. Now an Associate Professor of Geology and Geochemistry, Paul has conducted and played in the group for over 12 years on piccolo, flute, Bb tuba and his current favorite, the oddball F tuba. In his spare time he recruits band members to major in geology and geology majors to play in the band.

The bands at Caltech are sponsored by Caltech's Office of Student Affairs, with generous assistance from the Friends of Instrumental Music.

Music does not influence research work, but both are nourished by the same source of longing, and they complement one another in the release they offer:

If I were not a physicist, I would probably be a musician. I often think in music. I live my daydreams in music. I see my life in terms of music....I get most joy in life out of music.

-- Albert Einstein
